# The best thermoplastic solutions for infrastructure networks

Politejo Group was founded in 1978, as an industry specialized in the manufacture of thermoplastic solutions and its main activity is the production of pipes and plastic accessories for the water supply, waste water, irrigation, electricity and telecommunications.

Our strategy is based on the constant innovation of products and services, with a skilled team, able to understand the needs associated with the various sectors and present highly reliable solutions, longevity that allow the conservation of water resources and the environment.

The success of Politejo Group is based on the profile of its employees, with a family-oriented management, due to the strategic location of its manufacturing units and their complete solutions.

This profile enabled a notable growth throughout the last 40 years, and currently Politejo Group is present in Angola, Brazil, Spain, Mozambique and Portugal, with a view to expanding to new locations.

## RANGE PRODUCED AND DIMENSIONS

### Features

#### Most common applications

- Domestic and industrial cold water distribution mains.
- Conduction of chemical products gases and salt water.
- Fixed irrigation installations

#### Connection system

- By threading.

#### Assembly

- The assembly process of the threaded series is identical to that of the metal tubes.

#### Chemical Resistance

- According to DIN 16 929

Type	Working pressure (Kg/cm <sup>2</sup> )	L (m)	Dimensions Ø (mm)	Weight per metre (Kg)
1/2"	10	6	20,9	0,257
3/4"			26,4	0,368
1"			33,2	0,567
1 1/4"			41,9	0,887
1 1/2"			47,8	1,037
2"			59,6	1,533
