# The best thermoplastic solutions for infrastructure networks

Politejo Group was founded in 1978, as an industry specialized in the manufacture of thermoplastic solutions and its main activity is the production of pipes and plastic accessories for the water supply, waste water, irrigation, electricity and telecommunications.

Our strategy is based on the constant innovation of products and services, with a skilled team, able to understand the needs associated with the various sectors and present highly reliable solutions, longevity that allow the conservation of water resources and the environment.

The success of Politejo Group is based on the profile of its employees, with a family-oriented management, due to the strategic location of its manufacturing units and their complete solutions.

This profile enabled a notable growth throughout the last 40 years, and currently Politejo Group is present in Angola, Brazil, Spain, Mozambique and Portugal, with a view to expanding to new locations.

# LUSOAGRO

**LusoAgro** is an anti-cracking PE pipe without perforations, its use is very versatile, it can be used for both gardening and agriculture.

This tube is made of high quality materials and has perfect hardness/rigidity indices to facilitate its installation. Thanks to the materials used in manufacturing we also obtain a great resistance to UV rays, so we improve the life of the product if it is going to be used exposed to the sun. Its anti-cracking properties allow the pipe to be drilled at the desired distance to place emitters or accessories without it suffering any type of cracking along its entire surface.

We manufacture the Lusoagro in 2 diameters:

-External diameter of 16mm and internal diameter of 14.8 mm, the tube thickness is 1.2 mm and we obtain a pressure resistance of 2.5 BAR.

-External diameter of 20mm and internal diameter of 18.7 mm, the tube thickness is 1.3 mm and we obtain a pressure resistance of 4 BAR.

Reference	Diameter	Pressure ATM	MT Roll	Rolls/Pallet	Rolls / truck	Mt / truck
TAGROPE0404-400	16	2,5	400	9	360	144,000
TAGROPE0304-300	20	4	300	6	240	72,000
